JEE-O flow series by Brian Sironi

Water takes on the shape of the object that contains it. That concept has been the starting point in designing the flow series. Up until the moment water flows from the faucet and is free to take on any shape, it has the shape of the pipes through which it flows. We rarely see the pipes; they are hidden away behind walls and under floors. These taps and mixers from the flow series reveal the piping, extending it into the bathroom.

The shower and faucets are made of stainless steel in a brushed finish and the bath and basins from DADOquartz.

JEE-O soho series

We are ready to present to you the soho series RAW. For an even more industrial look, yet minimal, we stripped the series of its paint. What remains is the JEE-O soho series in its purest form: RAW. All JEE-O soho items are now available in RAW.

The soho series has been complemented with a bath, three basins and several accessories.
